Of Local Interest.

The fire bell broke up many a good snooze Sunday afternoon.

Family dinner tickets at low prices for the fair at Zimmer's.

A large crowd attended court Monday, but business was dull in all branches.

A pair of spectacles were left in this office about a week or ten days ago. Come get 'em.

Rev C C Brown, the new pastor of the Presbyterian church, will preach Sunday morning and evening.

Remember, you can get a splendid meal at Zimmer's, on the fair grounds, for less than it costs you to prepare your lunch.

Milliken's minstrels gave a good performance in their tent on Richmond street Saturday night. The music and dancing was fine.

The L & N will run another \$1.50 excursion to Cincinnati Sunday. Train leaves Lancaster a few minutes after five, and you have all day in the city.

The perfect order at the show grounds and in town Saturday night goes to prove what can be done when determined efforts are put forth to enforce the law.

The large barn of Mr T B Walker, on Danville street, caught fire about three o'clock Sunday afternoon, but the flames were extinguished before much damage was done.

Dinner by Zimmer on the fair grounds. Eat at these tables, where every convenience and comfort is provided, instead of lugging out a cold lunch. The price of a regular dinner at these tables is very small.

Their many friends extend deep sympathy to Mr and Mrs W H Furr on the death of their baby, who, after a lingering illness, died Saturday night. The child was nearly two years of age, and the pet of all who knew her.

Another Sale.

Hughes and Swinebroad sold the C C Stormes homestead, on Richmond avenue, opposite J R Hasselden, to Mrs M A Hamilton who will be glad to welcome back to this city by her many warm friends.

The Old Tyler Dead.

Mr Joseph T Davidson, who has been tyler of the Masonic Grand Lodge for more than thirty years, died at his home in Louisville last week. He was known and loved by the craft, and his death is deeply regretted. He was well acquainted in this county, having resided at Bryantsville some years ago.

The Ladies Aid Society of Hublik will give an ice cream supper Saturday night, July 7th, proceeds for the benefit of the church.

Wm Humber, who killed Policeman George Pollard, was brought before Judge Ford Saturday for examining trial. He waived examination and was sent back to jail without bond to await action of the August grand jury.

Will Begin Work at Once.

The directors of the Garrard Bank & Trust Co., met Monday and awarded the contract for building to Kenny & Co., of Danville, and work will begin immediately. A meeting is being held, as we go to press, for the purpose of selecting officers for the new institution.

K. P. Services.

The Knights of Pythias held memorial services at the Methodist church Sunday night, attended by a large congregation of people. The services were the continuation of the regular decoration exercises which were interrupted by rain the Sunday previous. Good talks were made by Eld F M Tindler, Rev B F Nelson and Hon R H Tomlinson.

Special Train to Lancaster Fair.

The L and N will run a special train from Paris to Lancaster each day during the Lancaster Fair. The train leaves Paris at 8:05 each morning, passing Winchester at 8:55, Richmond at 9:45 and arriving at Lancaster at 10:55. The rate will be one fare, plus twenty five cents, for the round trip. Return train will leave Lancaster at 5 o'clock. Dates, July 18, 19, 20.

Big Fair At Stanford.

The Stanford fair will be held July 12, 13, 14, and will be one of the very best in the state. Young, progressive men are at head of the enterprise, and they have gone the limit in the way of big premiums and plenty of them. Every convenience has been provided for the comfort of the people, and you are certain of a good time and splendid entertainment. Remember the dates—July 12, 13, 14.

A Great Bargain.

We have a rich farm, of 375 acres, four miles from town and a mile from Lexington pike, on a good road, on which a turnpike will soon be made, as many is being raised for that purpose, for sale on easy terms, at a low price. It is near a good school, in a good neighborhood. The land will grow hemp, tobacco or any other crop abundantly, and will soon pay the cost prices. Hughes & Swinebroad. 2t

Opening Ball at Crab Orchard.

The opening ball at the famous old Crab Orchard Springs will be held tomorrow (Friday) night, and a large crowd of people will attend. There are quite a number of guests at the springs now, and the season promises to be the best in recent years. Capt and Mrs J B Willis have made many friends for the resort, and the number of guests increases each year. There is no disputing the fact that it is the most delightful resort in the South.

Thanks to Bro Walton.

Just as we began to bind the several thousand catalogues for the Lancaster fair, our binding machine broke, and we were in the middle of a very bad fix. One of the office fore was placed in a buggy and hot-footed to Stanford, where Bro Ed Walton, in his usual big-hearted way, loaned us his machine, and we worked night and day to make up lost time. Cleverer men than Ed Walton don't exist, and if the world was made up of men like he, life would be more worth the living.

Real Estate Transfers.

There is some activity in real estate. Hughes and Swinebroad sold the Joseph property, on Stanford avenue, to Dr J A Amon; the Reid lot, where the fire recently occurred, to Dr G C Farris, and the Fisher and Herring property, on Richmond avenue, to Mr W E Amon, of Lincoln county, father of Dr Amon. We welcome Mr Amon and his family, knowing that he is a good citizen and a perfect gentleman. The three prices of property are very desirable and sold at reasonable prices.

Real Estate Sales in Harrodsburg.

Rue & Curry sold this week for J O Dedman 3 1/2 acres on Mackville pike to Lytle Kays for \$225 cash. For Joe Y. Vanarsdall his law office on Short street to W W Stephenson for \$1,350, cash. For Mrs Nannie Witherspoon her dower interest in the Express Office building to W A Bottoms for \$200, cash. For Mrs W W Stephenson house and lot near Graded School to Joe Vanarsdall for \$225, cash.

Six Per Cent Dividend.

At the annual meeting of The Lancaster Building & Loan Association held last week, dividend of 6 per cent was declared, and a fair amount carried to the surplus fund. This Building & Loan Association has been a great benefit to our people, as 50 or 60 houses have been paid for through it in small payments, and Secretary J C Hemphill says that he can convince anyone who will come to see him that they can pay for their houses by paying the same amount they are now paying for rent. The company organized for the upbuilding of the town, instead of an investment, and is one of the few now doing business in the State.

G M Siler is back from the mountains after a number of laborers to work on the improvements being made by the L and N Railway. He wants all the men he can get, good wages being in store for those who returned with him.

While the country is making faces at the grafter and the law is getting after him—except in the case of one or two distinguished members of that profession who have a superabundance of money—one writer rises and in a few simply terms mildly extols him in the following language; the writer's name is withheld for some reason—probably because he was a grafter himself and did not propose to give himself away: "We should not be too hard on the grafter. He may have his good points. Often he loves his family, and frequently he needs the money; besides, we should remember after all that his greatest crime consisted in being caught."

"While graft is a monster of such horrid men that to be hated needs but to be seen, we should remember that about as good a way to get a list of those who would embrace it if they got the chance when no one was looking would be to read the city directory. "One thing that ails us all is that we was made of the same kind of clay that went to the well too often, and while we should denounce graft wherever it appears and punish the grafter when he is caught yet we should be thankful if without offense ourselves, that no opportunity to graft ever came around making goggle eyes at us."

Again, once again, the cry from Kansas is for laborers to help reap the abundant crops. What, ho! Hobe! where are you? Why are not your weary footsteps turned Kansasward, where work is plenty and food and raiment abundant? But Kansas is not the only employer seeking help in various industries. The cry for help comes from many quarters. The demand for labor, skilled and unskilled, has never before been greater. The idle man is not forced into idleness; every man can get work to do if he wants it. The tales of the tramps at the backdoor of no work to do are simply lies for a meal. The country is wondrously prosperous.

It is claimed by those who "figured" on the result of late legislation in Ohio that the state has lost \$3,229,000 by imposing a \$1,000 tax on saloons. At least 3,229 saloons have gone out of business in consequence of the tax, and of course the state does not get the money. No, the state does not get the money, but it gains in morality and much saving by the people, besides the lessening of crime and misdemeanor as such as the saloons seem to foster. In the end the state will gain largely if not immediately.

The Harrodsburg Herald says good-natured people are a blessing wherever they be. They may not set the world on fire, they may not make the most money, but they leave an aroma of happiness in their wake that is better than anything in this world. To feel good toward your fellows and to be able to express that feeling at the proper time and as often as need be, is a gift more precious than gold or jewels. It is also as rare as great riches.

A St. Louis woman is suing for divorce because her husband showed too great a fondness for one of the domestics in the home. The wife is certainly showing herself lacking in appreciation for servant girls are hard to keep and her husband was probably only contributing his mite to the happiness of the girl.

It has been remarked by a philosopher and observer that the richest man in a community is not he who has the most money. This can be verified in every community. Some men comparatively poor in worldly wealth are rich as cream in the best and highest lights of human experience.

Higher and higher goes the price of plain straw hats for men. Some of them now cost \$10 and they are not Panamas either. The women think the price is outrageous and that no married man, at least, should indulge in such extravagance.

It is becoming quite fashionable for housewives to do their own cooking; that's why they go bare armed. They are forced into the exercise. And every one practicing this enforced economy is enjoying better health than ever before.

Employers of labor assert that women employees are more dependable and more conscientious than men. This is why, it may be supposed, so many women are taking the places of men in various vocations.

If these peck-a-boos waists come into general use, the men will have to wear blinders such as once were put on horses to keep them from becoming frightened by objects at the side.

Owing to a broken water main Cincinnati had a water famine the other day. No serious inconvenience resulted however as the brewers merely increased their delivery capacity.

Too many girls wear short sleeves who do not look to the condition of their elbows. Many an otherwise pret-

ty apron is soiled by an elbow cap that looks like a piece of bark.

A young woman discourses in the New York Globe of "The value of a smile," and a malevolent western editor answers that the price is 15 cents or two for a quarter.

That California bachelor who gave 4,000 shirt waists to the women of San Francisco must not be made fun of by either married or single men.

Robt Adkinson of Missouri who has been away from Kentucky for 50 years returned during Home Coming, and is at his brothers, our good friend and neighbor, George Adkinson, Mr Adkinson says nothing looks the same, he knows no one and but few know him.

Following The Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration, Willis T Morgan, retired Commissary Sergeant U S A., of Rual Route 1, Concord, N H., says: "I was two years in Cuba and two years in the Philippines, and being subject to colds, I took Dr King's New Discovery for Consumption which kept me in perfect health. And now, in New Hampshire, we find the best medicine in the world for colds, coughs, bronchial troubles and all lung diseases. Guaranteed at R E McRoberts, druggist. Price 50c and \$1.00. HERBERT VREELAND.

For Secretary of State.

So much encouragement has been given Herbert Vreeland, our present active and progressive young Commissioner of Agriculture to offer himself again as a candidate for a State office, that after mature consideration he has decided to become a candidate for Secretary of State. It certainly looks like he has won for himself the backing of the farmers of Kentucky for whatever he may seek, and in recognition of his efforts in their behalf since his election as State Commissioner thousands of them have urged him to offer for another State office, since the Constitution makes him ineligible for re-election. Mr Vreeland has accomplished something in an office that was created for the farmers, but which has been of very little benefit to them, and it is refreshing to the Democrats of Kentucky when they find public servants who devote all their time and through to fulfilling the duties of their office with energy and intelligence.

Mr Vreeland is the youngest of the present State officials, and until the last State election had never been a candidate for office. Although it was his first appearance he won his nomination for Commissioner of Agriculture by a majority of 26,000, next to the largest majority received by any candidate in the State primary, although opposed by two prominent candidates, who made most vigorous campaigns. Mr Vreeland has a personal acquaintance probably not surpassed by any other young man in Kentucky, extending to scores and hundreds in every one of the 119 counties in Kentucky. He is a brother of John W Vreeland, publisher of the Farmer's Home Journal, and at the head of the Democratic Executive Committee in Louisville and Jefferson county, and of Graham Vreeland, managing editor of the Courier Journal, who for ten years was the Legislative correspondent of the Courier Journal at Frankfort.

The Democratic nominations for State offices will be made again by State primary in November, and Mr Vreeland has begun an active campaign. Up to the present time he has no opposition.

For the Farmer, Trader and Housewife

Stock Items, Dairy Notes, Horse Talk, Crop Gossip, Etc.

Carefully collected reports indicate that the winter wheat yield this year will be at least fair. Only a wet harvest season remains as a possible drawback.

Here is something that is worth many dollars to every farmer to know. Sprinkle lime in your stock tank and not a particle of scum will form on the water. When the lime loses its strength scum will begin to form, which may be twice during the season, wash out the tank and repeat the dose. It is cheap not only harmless but whole some, keeps the water sweet and saves the live stock.

R. T. Stone a miller of Springfield, Mo., after making a trip of 1,000 miles over the wheat area of Kansas, expresses his conviction that Kansas will not raise over 63,000,000 bushels of wheat this year. He allows Missouri 20,000,000 bushels, Texas 10,000,000, Oklahoma 20,000,000 to 25,000,000 bushels. It is his opinion that Oklahoma is the bright spot in the whole situation. If his figures are correct, the total of these States will be 113,000,000 bushels against 127,000,000 bushels a year ago.

At Rock Valley, Iowa, Walpole Bros. recently sold at auction four Short horn bulls at an average of \$167.50 and 23 females at an average of \$162.50.

A Shorthorn cow in Nebraska comes to the front as the champion butter producer. As a general purpose, all-around animal for farm purposes, it is hard to beat the Shorthorn.

At a sale of Aberdeen Angus cattle held recently at Storm Lake, Iowa, 57 females averaged \$161.10 and 17 bulls averaged \$25.80. The cattle sold were from the herd of the late Wm. Miller.

A Chicago woman has brought discredit upon the poultry business by supplying her city customers with eggs at high prices, alleged to be "fresh from the farm," which had really been bought from cold storage for a mere trifle. It is pleasant to know that the sheriff is after her and thus may the honest hen be vindicated from a dishonest woman.

Regarding the use of coal-tar in the life of posts used for fencing on a farm, a practical farmer, who has made full trial, says: "Coal-tar used in this way greatly increased the durability of such posts. It is applied to the lower end of the posts. The tar acts as an antiseptic; also as a repellent of moisture. It would pay to treat the posts in this way at \$1 a barrel, for it is not alone the cost of new posts, but also the labor of replacing old ones, that is saved."

In former years the flour used by farmers was made from wheat raised by themselves and ground at the local mills, the miller taking a portion of the grain in pay for the grinding. Of late years the farmers have generally sold their wheat and bought their flour. But some have continued on the old plan. The last Legislature passed a law limiting the amount to be taken as toll to one-seventh. The millers think this is not enough and at the recent meeting of the Miller Association at Lexington it was decided to discontinue the practice of custom grinding for toll.

We are likely to pay attention to farm productions when the prices for them are high and then neglect those productions when they sell low. An old farmer who has noticed this and who thinks well of clover strongly advocates the regular growing of this crop. He says that the first growth of clover well cared for and cut in June makes the best of hay. The second crop is to be cut "during the first half of September, when the heads are only one-half browned." Three to four bushels of seed is a fair product per acre. This added to the value of the hay or first cutting will usually pay well.

A Happy Visit.

Mr. R. Eason, of Chicago, who has been spending a pleasant week with his uncle and aunt, Mr. and Mrs. J. A. Pane, enjoyed a happy reunion with all his cousins that could be brought together last Sunday, among them were Mr. and Mrs. J. C. Eason, Mr. and Mrs. John William, Mr. and Mrs. Penatton Cox and two children Mr. J. W. Eason and family, Mr. Daniel Eason and family consisting of his wife, son daughter and father-in-law Elisha Fiford, eighty-four years old; and many other friends but not cousins. He took the train for Lexington Monday morning where he will spend a few days with his two sons there, and then return to his business in Chicago, taking with him many pleasant memories and many treasures and souvenirs of his old home, gifts of his friends; and leaving with his aunt a picture of his family in a group pronounced by all the most beautiful picture they had ever seen. * * *

MILLIONS IN BENEVOLENCE

What Was Given Last Year as Compared with Other Years—The Heaviest Givers.

Benevolent gifts of \$5,000 and upwards made within the United States during the year 1907, amounted to a total of \$66,000,000. This is the continuation of the Chicago Record-Herald, which for several years has made a specialty of collecting these figures. In previous years the record has run as follows: 1900, \$47,000,000; 1901, (the banner year of all history in human generosity), \$107,000,000; 1902, \$94,000,000; 1903, \$95,000,000; 1904, \$82,000,000. That the Master's rules of benevolence have a strong power over the present generation, says the Herald, appears to be indicated by the extraordinary fact that one-third of all these larger donations during the year were anonymous. Mr. Carnegie gave \$14,000,000 of the total; Mr. Rockefeller nearly \$12,000,000. More than half—\$37,000,000—was devoted to education. Galleries and museums received \$7,000,000, and hospitals \$5,000,000, while an equal amount went to miscellaneous charities. Over \$1,000,000 was contributed to special forms of church work and to church buildings, in addition to \$2,000,000 specially designed for foreign missions. Of course, the total benevolent gifts under \$5,000, if it was possible to collect the statistics, would vastly outweigh even this impossible showing, especially in church work.

MEET NEXT AT ROME.

World's S. S. Convention to Be Held in "Eternal City" in May of 1907.

The next World's Sunday School convention will be held in Rome, May 20-23, 1907, and a notable gathering it will be. The present enrollment shows about 250,000 schools with 25,000,000 scholars, and the fact that Rome has been chosen as the site of the next convention will without doubt make that meeting the most memorable in the history of the work. The arrangements for transportation will be in the hands of a committee of which Mr. W. N. Hartshorn, of Boston, is chairman, and that is a guarantee that this most difficult problem will be most satisfactorily solved. The convention will be preceded by a communion service in the various churches of the Protestant denominations having houses of worship in Rome, May 19, and the good people of Rome will find in these tens of thousands of Sunday school workers a new order of pilgrims, but a sort to command their respect.

How to Break Up a Cold.

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's cough remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. For sale by R E McRoberts the reliable druggist of Lancaster.

Don't look for oak trees out of acorns in a day or year. It takes time to ripen both crops and character.

Deadly Serpent Bites

are as common in India as are stomach and liver disorders with us. For the latter however there is a sure remedy: Electric Bitters, the great restorative medicine, of which S A Brown, of Benningville, S C says: "They restored my wife to perfect health, after years of suffering with dyspepsia and chronic liver trouble." Electric Bitters cures chills and fever, malaria, biliousness, lame back, kidney troubles and bladder disorders. Sold on guarantee by R E McRoberts, druggist. Price 50c.

Don't trust your feelings as a proof of pity. The "cash register" is far more trustworthy and reliable.

Death From Lockjaw

never follows an injury dressed with Bucklen's Arnica Salve. Its antiseptic and healing properties prevent blood poisoning. Chas Oswald, merchant, of Rensselaersville, N Y, writes: "It cured Seth Burch, of this place, of the ugliest sore on his neck I ever saw." Cures Cuts, Wounds, Burns and Sores. Sold at R E McRoberts drug store. 1m

Don't judge a sermon by your ears. There is a vast difference between tickle and a truth.

Unknown Friends.

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by R E McRoberts the reliable druggist Lancaster.
